

Swanson Clean-up

Written by Swanson Trailleader

Manawa is definitely the priority now but I will need some help knocking down the weeds and grass around the entire Swanson trail Monday the 25th, 6:00pm.

Big weekend of riding at Swanson that following weekend with the second MetrO race taking place.

This should be the last major trimming this summer if July and August dry out like they usually do, however the current trend is?

Need a pair to work in both directions and one lopper going with each, a 5th person working one side of the middle area speeds it up significantly.
